Mayor Statement

I am deeply saddened by the incident that tragically took the life of a young man yesterday (Wednesday, May 3). It reminds us of the dangers of gun violence present in our society. The world we are building for our children should not include conflict resolution by way of violence with weapons. Our hearts and prayers go out to the families and friends of the young man that lost his life. I also want to thank the first responders and members of the Edgewater Police Department and Jefferson County Sheriff's office for their quick response to the incident.

Additionally, it is very important to care for individual mental health. Below is a contact for Victim Outreach Incorporated for community members that are need mental health support following this tragic event. You can also call 988 any time for mental health emergencies.

Thank you,

Mayor John Beltrone
