

Victim Outreach Incorporated (VOI) promotes the healing of people impacted by crime and trauma in Jefferson County CO, and we're looking for volunteers to ensure that victims have compassionate, informed support in the immediate aftermath of their experience.

Volunteer advocates are called by police to respond on-scene overnight or on weekends. They provide emotional support during a crisis, share information and resources, and are a crucial first step to victims starting on a path of healing and recovery.

No experience is necessary - VOI will provide 40 hours of volunteer training, reference materials and ongoing learning opportunities - but you must be at least 21 and live in or near Jefferson County CO.

For information about our 2021 Victim Advocate Training please contact us at 303.202.2196 or VictimOutreachInfo@gmail.com
